

A fish is a life, not just a fairground prize.

Hi, I'm Howie, I was a fairground prize but I was a lucky one, many of the others were not and lost their lives a result.

I can hear really well - the loud music frightens me.

I can see in colour, ultraviolet and infrared - the bright lights scare and stress me.

My welfare is protected by law - I'm included in the Animal Welfare Act 2006.

I'll grow to 30cm long and live at least 15 years - I'm a long term commitment.

Fairs are fun but not for fish.

Please don't try and win me as a prize, if you'd really like a pet fish please visit our website at www.injaf.org to find out how to prepare for, purchase and care for me. Fairgrounds are for fun, sweets and toys, not for me to risk my life - **love Howie.**
